SUMMARY

Senior React Native Developer with 5 years of experience building scalable, high-performance Android and iOS applications using React Native, TypeScript, Redux, GraphQL, and REST APIs. Strong expertise in mobile architecture, performance optimization, CI/CD automation, secure API integrations, and delivering production-grade applications across fintech, edtech, and telecom domains. Prior experience collaborating on React.js-based web platforms to support cross-platform consistency.

SKILLS:

- **Mobile Application Development:** React Native (Android & iOS), Cross-Platform Architecture, Native Module Integration
- **Programming Languages:** TypeScript, JavaScript
- **State Management & Data Fetching:** Redux, Redux Toolkit, Zustand, Context API, TanStack Query, REST APIs, GraphQL
- **Performance Optimization:** Rendering Optimization, Memory Management, Lazy Loading, Code Splitting
- **Mobile CI/CD & Deployment:** Fastlane, GitHub Actions, Play Store & App Store Release Management
- **Frontend:** React.js, HTML5, CSS3
- **Testing:** Jest, React Testing Library, React Native Testing Library
- **Tools & Collaboration:** Git, Jira, Confluence, Agile/Scrum
- **AI-Assisted Development:** Cursor AI, GitHub Copilot, Claude

EXPERIENCE

UpGrad.

Noida, UP, India

Software Developer II

January 2025 – February 2026

- Architected and scaled upGrad's React Native learning application serving a large active user base across Android and iOS platforms.
- Implemented offline course downloads, video streaming, chatbot integrations, and optimized rendering performance.
- Led performance tuning initiatives improving app stability and reducing release cycle time by 40% via CI/CD automation using Fastlane and GitHub Actions.
- Conducted code reviews and refactored legacy modules to align with modern React Native architecture standards.

Invia Pvt Ltd.

Noida, UP / India

Software Developer L2

November 2024 – January 2025

- Developed Telecom Management App Built an enterprise-grade app enabling users to monitor usage, billing, and alerts in real-time. Enhanced app responsiveness and ensured security compliance.
- Delivered responsive components under tight timelines, demonstrating adaptability and ownership.
- Optimized application performance by improving rendering efficiency, handling asynchronous data flows, and reducing UI latency.

Gojoko Technologies.

Software Engineer

August 2023 – September 2024

Noida, UP / India

- Contributed to a UK-based fintech credit card mobile application focusing on secure transactions and biometric authentication.
- Integrated and optimized GraphQL and REST APIs, reducing API response times by 30%.
- Improved mobile performance through efficient state management, caching, and optimized rendering strategies.
- Automated release workflows and enhanced deployment reliability across environments.
- Operated effectively within an Agile/Scrum framework, demonstrating a "driver" mentality in feature delivery.

Webmobril Technologies

React Native Developer

September 2021 – August 2023

Noida, UP / India

- Built feature-rich mobile applications including e-commerce platforms with Stripe integration and NFC-based authentication systems.
- Developed scalable, performance-optimized React Native interfaces, translating UI/UX designs into responsive, production-ready mobile features.
- Enhanced maintainability by modularizing components and integrating testing workflows.

EDUCATION

B.E (Computer Science)

PBCOE, Nagpur, MH, India

2013 - 2017

CERTIFICATIONS

upGrad – Generative AI Foundations Certification: Covered LLM fundamentals and end-to-end application development using OpenAI APIs.

Awards

Code Conqueror Award (upGrad Education Pvt Ltd, 2025): Recognized for exceptional coding proficiency, problem-solving skills, and delivering high-quality solutions within tight deadlines.

Amplifi Star Value Award (Gojoko Technologies, 2024): Outstanding performance and dedication to team and project goals.

Best Team Award (Webmobril Technologies, 2023): Excellence in team collaboration and project execution.

On The Spot Award (Webmobril Technologies, 2022): High-quality, timely deliverables acknowledged directly by the client.

Special Initiative Award (Webmobril Technologies, 2022): Exceptional contribution to Information Security Awareness initiatives.
